## COMMUNITY CRISES MANAGEMENT POLICY

The community shall be handled very sensitively to avoid crises and any form of disturbances. We shall endeavour to co-operate with our host community where appropriate as we execute our job. The Party chief is responsible to handle community issues as appropriate. Refer to the job hazard analysis in the case of community upsets. Also attached is the community crises contingency plan.

Since the probability that community crisis cannot be entirely ruled out, **ATLANTIC LIGHT** has put in place a community crises management plan to be adhered to in cases of community crises.

### ALIL COMMUNITY CRISES CONTINGENCY PLAN
