

# ATLANTIC LIGHT

## MAINTENANCE POLICY

In view of the importance of our Vehicles and Equipment, the management of **ALIL** therefore made it as a policy that:

- All vehicles must be serviced after every 2000km and record of work done properly kept and maintained by the maintenance officer whether the vehicle is in use or not.
- That all vehicles must be inspected daily by the HSE manager to ensure it is fit for operations
- All vehicles must be road worthy
- All equipment must be properly serviced after every 6months and record of work done properly kept and maintained by the maintenance officer.
- That all equipment should be checked daily before use.
- If a vehicle or equipment is not fit for operations “don’t use”.
