## SEAT BELT POLICY

Our seat belt policy is geared towards achieving a non-fatal impact on road traffic accidents on our drivers and passengers.

We shall ensure:

- a) All company vehicles must be fitted with functional seat belts at every available seating position.
- b) Occupants in our moving vehicles must wear seat belts.
- c) A vehicle, which does not meet with the above requirement, is not fit for our use and is also not given access into our premises.
